

Parents' Forum Autumn 08/12/21

Attended: LL,MF,NP,LS,GL,KL

Apologies:

Homework survey

- MF thanked parents for completing the survey and the high number of forms completed
- MF explained the rationale behind the project homework
- NP discussed the findings from the survey
- LS felt that asking for one project per week was too much when parents have multiple children in the school
- GL said he understood it would benefit some families but they still preferred additional Maths or English work
- LL explained school would re-evaluate the project homework for the new upcoming term
- LS requested if final pieces of English work could be sent home as both of her children had been very proud of their writing and they would have liked to have shown the family.
- LL agreed and would speak to staff about work being sent home with children

Barton Close

- All parents still pleased it is pedestrianised between certain hours and agreed it felt safer for the children
- LL agreed and would feed this back to the Council Highways Team

Mission Statement and Christian Values

- LL explained that staff had met at the start of this half term and reflected on the mission statement and Christian values
- LL explained to parents that an online survey would be sent out to parents to gather their views
